SUMMARY

Health tech software engineer with hands-on experience architecting a production HIPAA-compliant CCM/RPM platform from the ground up. Specialized in React, AWS, and clinical workflow systems across multi-portal, regulated environments.

EDUCATION

San Francisco State University

B.S. in Computer Science, Minor in Persian Studies

- **GPA:** 3.53/4.00, *Dean's List*

San Francisco, CA

Jan 2024 – Aug 2026

Los Medanos College

Lower Division Computer Science Coursework, Transfer to SFSU

- **GPA:** 3.43/4.00, *Honor Roll*

Pittsburg, CA

Aug 2020 – Nov 2023

EXPERIENCE

MedManage Solutions

Lead Software Engineer

Daly City, CA

Sep 2025 – Present

- Architected and built ClearPath Virtual Health from the ground up — a production HIPAA-compliant CCM/RPM platform across four role-based portals (Patient, VCC, Doctor, Admin) spanning 30+ components with HIPAA-compliant session management, MFA, and audit logging
- Worked across frontend and AWS infrastructure (S3, CloudFront, ECS Fargate) with automated CI/CD pipelines, reducing deployment time by 35% and administrative overhead by 40%
- Owned frontend integration of secure JWT-authenticated REST APIs with RBAC, enabling Medicare billing workflows supporting CPT and ICD-10 codes
- Increased recurring revenue by 200%+ and reduced missed appointments by 15% through end-to-end patient engagement and care coordination systems
- Engineered a monthly CCM billing reports system with encounter documentation, CPT/ICD-10 code management, physician sign-off workflows, and PDF export — directly supporting Medicare reimbursement compliance

PROJECTS

Union Workforce Ecosystem

Software Engineer

Daly City, CA

April 2026 – present

- Designed and prototyped a five-portal labor workforce platform, unifying dispatch, dues, grievances, training, and benefits into one system of record
- Built a carrier-agnostic health coverage model normalizing insurance data across 100+ screens with derived totals, eliminating cross-screen inconsistency
- Established a shared design system and generator tooling to regenerate UI chrome and prevent drift across the growing screen library

ACTIVITIES & LEADERSHIP

MESA Program at San Francisco State

Mentor

San Francisco, CA

Aug 2024 – Present

- Guided peers in academic and career development, fostering collaboration and professional growth

SKILLS

Languages & Frameworks: JavaScript, Typescript, React, Python, Node.js, HTML5/CSS, SQL, Java, C++

Cloud & DevOps: AWS (S3, CloudFront, ECS Fargate), CI/CD, REST API Integration, System Architecture

Healthcare & Compliance: HIPAA, CCM/RPM, Medicare Billing (CPT/ICD-10), EHR Workflows, MFA, RBAC

Languages: English, Persian
