EDUCATION

San Francisco State University — **San Francisco, CA**
B.S. in Computer Science, Minor in Persian Studies — *Jan 2024 – Aug 2026*
- **GPA:** 3.53/4.00, *Honor Roll + Dean's List*

Los Medanos College — **Pittsburg, CA**
Lower Division Computer Science Coursework, Transfer to SFSU — *Aug 2020 – Nov 2023*
- **GPA:** 3.43/4.00, *Honor Roll*

EXPERIENCE

Workforce Systems — **San Francisco, CA**
Lead Software Engineer — *Nov 2026 – Present*
- Lead a four-person engineering team building a labor union's workforce platform, consolidating dispatch, dues, grievances, training, and benefits into one system of record.
- Built the Next.js/TypeScript web app: a public site plus member, contractor, and union-operations portals across 98 routes, guarded by 139 Playwright end-to-end tests.
- Built the iOS/Android member app from one Flutter codebase (38 screens, 202 widget tests at three screen sizes), and added contractor accounts with role-scoped auth to the Laravel API.

MedManage Solutions — **Daly City, CA**
Founding Software Engineer & Engineering Lead — *Sep 2025 – Oct 2026*
- Helped drive 200%+ recurring revenue growth and 15% fewer missed appointments as first engineer, architecting ClearPath Virtual Health, a HIPAA-compliant chronic care and Medicare billing platform.
- Led a team of 7 engineers, turning requirements from physicians, nurses, care coordinators, attorneys, and the CEO into four role-based portals and a Flutter patient app for iOS and Android.
- Cut deployment time 35% and administrative overhead 40% with a React/AWS stack (S3, CloudFront, ECS Fargate) and CI that runs lint, dependency audits, and 1,600+ automated tests on every push.
- Secured patient data to HIPAA standards with MFA, session timeouts, audit logging, a PHI-redacting logger, CSP headers, and tamper-evident multi-region AWS CloudTrail logs.

Optimyzi — **San Francisco, CA**
Software Engineer Intern — *Dec 2025 – Jun 2026*
- Co-designed the shared data models and RBAC behind a multi-portal healthcare platform in React, TypeScript, Node.js/Express, and PostgreSQL.
- Built clinical workflows for intake, diagnosis, and lab results, with authentication and secure API integrations.

PROJECTS

Planet Pooyah — **planetpooyah.com**
Creator — *Oct 2026 – Present*
- Built a cross-platform learning app in Next.js and TypeScript for web, Android, and iOS from one codebase with Capacitor, on a Laravel REST API with offline-first sync that merges progress across devices.
- Integrated Stripe subscriptions (Cashier, webhooks), Google/Apple sign-in, and child-privacy data minimization, covered by 316 automated tests (Vitest, PHPUnit).

SKILLS

Languages: JavaScript, TypeScript, Python, PHP, Dart, SQL, Java, C++, HTML5/CSS

Frameworks & Data: React, Next.js, Node.js, Express, Flutter, Laravel, PostgreSQL, REST APIs

Cloud & DevOps: AWS (S3, CloudFront, ECS Fargate), CI/CD, Stripe, System Architecture, HIPAA, RBAC

Spoken Languages: English, Persian
