SUMMARY

Software Engineer with experience building and shipping production web and mobile applications. Skilled in React, TypeScript, Next.js, AWS, and full-stack development, with experience in healthcare technology, enterprise platforms, and secure application architecture.

EDUCATION

San Francisco State University — **San Francisco, CA**
B.S. in Computer Science, Minor in Persian Studies — *Jan 2024 – Aug 2026*
- **GPA:** 3.53/4.00, *Honor Roll + Dean's List*

Los Medanos College — **Pittsburg, CA**
Lower Division Computer Science Coursework, Transfer to SFSU — *Aug 2020 – Nov 2023*
- **GPA:** 3.43/4.00, *Honor Roll*

EXPERIENCE

Workforce Systems — **San Francisco, CA**
Lead Software Engineer — *Nov 2026 – Present*
- Lead development of a union workforce platform in Next.js and TypeScript: union, contractor, and member portals (90+ screens) and a public website, unifying dispatch, dues, grievances, training, and benefits.
- Built the iOS/Android member app in Flutter (46 screens) with secure token storage, screen-reader labels, and route tests at three screen sizes.
- Added contractor accounts and role-scoped auth middleware to the Laravel REST API, with feature tests.

MedManage Solutions — **Daly City, CA**
Lead Software Engineer — *Sep 2025 – Oct 2026*
- Architected and built ClearPath Virtual Health from the ground up, a production HIPAA-compliant CCM/RPM platform spanning four role-based portals with MFA, secure session management, and audit logging.
- Engineered React/AWS infrastructure with S3, CloudFront, ECS Fargate, CI/CD, and JWT/RBAC API integrations, reducing deployment time by 35% and administrative overhead by 40%.
- Built Medicare billing and patient engagement systems supporting CPT/ICD-10 workflows, physician sign-off, PDF reporting, and care coordination, contributing to 200%+ recurring revenue growth and 15% fewer missed appointments.

Optimyzi — **San Francisco, CA**
Software Engineer Intern — *Dec 2025 – Jun 2026*
- Helped design core modules for a full-stack healthcare platform using React, TypeScript, Node.js, Express, and PostgreSQL with shared data models and RBAC.
- Built clinical workflows and multi-portal architecture spanning intake, diagnosis, lab results, authentication, and secure API integrations.

ACTIVITIES & LEADERSHIP

MESA Program at San Francisco State — **San Francisco, CA**
Mentor — *Aug 2024 – Aug 2026*
- Guided peers in academic and career development, fostering collaboration and professional growth.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Python, Node.js, HTML5/CSS, SQL, Java, C++
Cloud & DevOps: AWS (S3, CloudFront, ECS Fargate), CI/CD, REST API Integration, System Architecture
Healthcare & Compliance: HIPAA, CCM/RPM, Medicare Billing (CPT/ICD-10), EHR Workflows, MFA, RBAC
Languages: English, Persian
